**Business name or organisation (if applicable):**

**Position title (if applicable):**

**Is this an individual submission or on behalf of a group or organisation?**

Privacy of natural persons

**Please indicate which group you most identify with or are involved in?**

Privacy of natural persons

**Please specify the group that you most identify with**

**Please indicate which type of group your submission represents**

**Please specify the group or organisation that your submission is on behalf of.**

**Vision**

**Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?**

Disagree

**Why?**

The Strategy should set a timeframe for the phase out of fossil fuels, starting with no new coal mines or oil and gas wells, and protecting essential uses of these fuels (eg steel making) for as long as possible, while closing down uses for which there are good substitutes, like electricity generation, promptly.

**What is your vision for the minerals and petroleum sector in New Zealand?**

Fossil fuels which must be phased out and go to zero as fast as possible because they are driving climate change. Other minerals should be assessed on their environmental impact.

**How can New Zealand sustainably derive value from its petroleum and minerals resources?**

Leave fossil fuels in the ground. Derive value from eco-tourism instead

**Objectives for the minerals and petroleum sector**

**Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.**

Strongly agree

**Why?**

I support NZ's transition to a carbon neutral economy. The draft Strategy is not consistent with the Government's policy on climate change, which is to achieve zero carbon by 2050 under the Paris Accord. Everything in the Strategy must fit within the framework of the climate emergency, and the need to change the ways we do things. BAU is not an option anymore.

**Objective for a sector that: “Is productive and innovative”.**

Strongly disagree

**Why?**

**Objective for a sector that: “Is effectively regulated”.**

Agree

**Why?**

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

The Strategy should set a timeframe for the phase out of fossil fuels, starting with no new coal mines or oil and gas wells, and protecting essential uses of these fuels (eg steel making) for as long as possible, while closing down uses for which there are good substitutes, like electricity generation, promptly

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Neither agree nor disagree

**Why?**

It is not good enough to say that ecosystems and biodiversity must be “respected”- it should say “protected”.

**Principle: Māori cultural interests are understood and respected.**

Agree

**Why?**

**Principle: Support the transition to a carbon neutral economy by 2050.**

Strongly agree

**Why?**

Everything in the Strategy must fit within the framework of the climate emergency, and the need to change the ways we do things

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Agree

**Why?**

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Strongly agree

**Why?**

This is very important and needs a strategy on its own.

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Agree

**Why?**

Must be consistent with the Government's policy on climate change

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Strongly agree

**Why?**

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Neither agree nor disagree

**Why?**

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Agree

**Why?**

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Strongly disagree

**Why?**

Continuing production and exploration under current permits) puts the property rights of miners ahead of the transition to zero carbon. It means renewal and expansion of existing oil drilling licences even when there is a ban on new oil drilling. This is not acceptable for fossil fuels, and for other resources it should be dependent on environmental impact.

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Disagree

**Why?**

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Agree

**Why?**

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Agree

**Why?**

**Principle: Strive to implement industry best practice in operations.**

Agree

**Why?**

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Strongly agree

**Why?**

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Agree

**Why?**

**Are there any other principles you would like us to consider in the strategy?**

Gas is NOT a sustainable bridge to a low carbon (let alone zero carbon) economy. It's carbon dioxide emissions are more like 60% of coal rather than the 50% often quoted by industry, and we have to add to that significant methane releases from all parts of the production and use cycle. (They know this!) Particularly, any new gas wells or infrastructure will be used for decades and take us backwards from the zero carbon future. It should be phased out in the same way as coal and oil

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Neither agree nor disagree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Disagree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving Treaty partnership**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving stakeholder and community engagement**

Agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving industry compliance**

Neither agree nor disagree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Research and investment in better mining and resource use**

Neither agree nor disagree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**

**If you wish to, attach a document to this submission.**

**Use and release of information**

**We intend to upload submissions to our website at [www.mbie.govt.nz](http://www.mbie.govt.nz). Can we include your submission on the website?**

Yes

**Can we include your name?**

No

**Can we include your email address?**

No

**Can we include your business name or organisation?**

No

**Can we include your position title?**

No

**Can we include the group you most identify with (if submitting as an individual)?**

No

**Can we include the group your submission represents (if submitting on behalf of a group or organisation)?**

**If there are any other parts to your submission that you do not want public on the website please note them below:**

**OIA publishing warning**

**If there is information in your submission that you wish to remain confidential, please note them below:**
