**Vision**

**Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?**

Strongly disagree

**Why?**

I believe it is time for New Zealand phase-out fossil fuel extraction, for the benefit of the environment and to prevent further global warming.

**What is your vision for the minerals and petroleum sector in New Zealand?**

To be phased out, with no more permit extensions and a halt to deep-sea drilling and fracking. The govt needs to help the transition.

**How can New Zealand sustainably derive value from its petroleum and minerals resources?**

Any extraction should only happen with more input from iwi and minimal environmental impact.

**Objectives for the minerals and petroleum sector**

**Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.**

Strongly agree

**Why?**

New Zealand needs to be carbon neutral so that we have a positive future, and products need to be part of a circular economy.

**Objective for a sector that: “Is productive and innovative”.**

Strongly agree

**Why?**

In order to move away from fossil fuel extraction and damaging the environment, to walk gently on the earth and within the sea.

**Objective for a sector that: “Is effectively regulated”.**

Strongly agree

**Why?**

The government needs to ensure that the standards are held for the good of all and the environment.

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

That they look for alternative, gentler ways to interact with the environment and focus on products which are carbon neutral.

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Strongly agree

**Why?**

To maintain partnership and guardianship with the environment for the greater good of all.

**Principle: Māori cultural interests are understood and respected.**

Strongly agree

**Why?**

To maintain partnership and guardianship with the environment for the greater good of all.

**Principle: Support the transition to a carbon neutral economy by 2050.**

Strongly agree

**Why?**

Global warming and its many possible outcomes (for example as cited in the recent Stuff article)

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Strongly agree

**Why?**

We are all impacted by decisions in this industry, we need to look after our taonga.

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Strongly agree

**Why?**

This is the way for 2050 to be a positive outcome, for all.

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Strongly agree

**Why?**

All areas are connected, and we need a unified vision.

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Strongly agree

**Why?**

We are guardians of the land and sea and partners.

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Strongly agree

**Why?**

These are the resources of the nation, and do not belong to a company so that they may look good on the sharemarket to shareholders.

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Strongly agree

**Why?**

Integrity is essential.

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Strongly disagree

**Why?**

We need to focus on the rapid phase-out of fossil fuel extraction.

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Strongly agree

**Why?**

On the principal of the rapid phase-out of fossil fuel extraction, which is for now and future generations.

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Strongly agree

**Why?**

We are a collective of people and need the best possible outcome for all of our futures.

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Strongly agree

**Why?**

**Principle: Strive to implement industry best practice in operations.**

Strongly agree

**Why?**

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Strongly agree

**Why?**

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Strongly agree

**Why?**

**Are there any other principles you would like us to consider in the strategy?**

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Strongly agree

**Why?**

**What future actions would you like us to consider under this Action Area?**

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Strongly agree

**Why?**

to minimise global warming

**What future actions would you like us to consider under this Action Area?**

Base this on a circular economy, recycling & utilising waste resources before new mining for a clean tech economy.

**Action Area: Improving Treaty partnership**

Strongly agree

**Why?**

Strengthen iwi partnership and growing guardianship values.

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving stakeholder and community engagement**

Strongly agree

**Why?**

Buy in and awareness by the community.

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving industry compliance**

Strongly agree

**Why?**

One of the key industries contributing in global warming, this needs to be monitored.

**What future actions would you like us to consider under this Action Area?**

**Action Area: Research and investment in better mining and resource use**

Strongly agree

**Why?**

To have minimal impact on the environment.

**What future actions would you like us to consider under this Action Area?**

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**

Any transition to a rapid phase-out of fossil fuel extraction needs to include a supportive transition for the working people and communities whose jobs currently rely on fossil fuel extraction. The Government needs to help people working in the industry and unions to train for new careers in clean industries.
