

## Introduction

### Name:

Privacy of natural persons

### Email:

Privacy of natural persons

### Business name or organisation (if applicable):

### Position title (if applicable):

### Is this an individual submission or on behalf of a group or organisation?

Individual

### Please indicate which group you most identify with or are involved in?

General public

### Please specify the group that you most identify with

### Please indicate which type of group your submission represents

### Please specify the group or organisation that your submission is on behalf of.

### Vision

### Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Agree

### Why?

Perhaps what is best for the world may not include petroleum

### What is your vision for the minerals and petroleum sector in New Zealand?

Tightly regulated and phased out

### How can New Zealand sustainably derive value from its petroleum and minerals resources?

Again probably need to be more innovative and look to other possibilities

### Objectives for the minerals and petroleum sector

### Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Agree

### Why?

Needs to be less talk and protection. Innovation now

### Objective for a sector that: "Is productive and innovative".

Agree

### Why?

As above

### Objective for a sector that: "Is effectively regulated".

Strongly agree

**Why?**

Regulated by an impartial body

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

Other options

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

**Why?**

The environment is not respected now

**Principle: Māori cultural interests are understood and respected.**

Agree

**Why?**

Work in progress

**Principle: Support the transition to a carbon neutral economy by 2050.**

Disagree

**Why?**

Needs to be faster

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Agree

**Why?**

Who regulates this?

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Agree

**Why?**

Makes commonsense

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

Agree

**Why?**

Only as long as all strategies are putting environment first

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Agree

**Why?**

A legal requirement

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Strongly agree

**Why?**

Monies stay on shore

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Strongly agree

**Why?**

Who will check this? What transparency will there be. Agree in principal

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Disagree

**Why?**

The needs of nz and environment should come first

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Neither agree nor disagree

**Why?**

Who is providing this unbiased best evidence?

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Neither agree nor disagree

**Why?**

They should but will they

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Agree

**Why?**

At times rules are too prohibitive

**Principle: Strive to implement industry best practice in operations.**

Agree

**Why?**

Workers and management need to be involved

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Disagree

**Why?**

Minimise negative effects..newspeak. remove negative effects altogether

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Neither agree nor disagree

**Why?**

More jargon meaning little

**Are there any other principles you would like us to consider in the strategy?**

Honesty and long term responsibility to the people of NZ and our land/sea/air

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Disagree

**Why?**

Define modernising. Make it accountable

**What future actions would you like us to consider under this Action Area?**

All business accountable for the effects it has on the people and the land

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Neither agree nor disagree

**Why?**

Renewable and affordable

**What future actions would you like us to consider under this Action Area?**

All actions must be considered in the light of long term consequences not short term gain

**Action Area: Improving Treaty partnership**

Agree

**Why?**

We are a bicultural nation

**What future actions would you like us to consider under this Action Area?**

Open communication

**Action Area: Improving stakeholder and community engagement**

Strongly agree

**Why?**

If people are involved more productive results

**What future actions would you like us to consider under this Action Area?**

**Action Area: Improving industry compliance**

Strongly agree

**Why?**

Make consequences enough of a deterrent

**What future actions would you like us to consider under this Action Area?**

We all have a responsibility to reduce effects on environment but some need more drastic measures to ensure compliance

**Action Area: Research and investment in better mining and resource use**

Neither agree nor disagree

**Why?**

Seems slanted to continue to use non renewable resources

**What future actions would you like us to consider under this Action Area?**

Renewable resources

**Are there any other action areas you would like us to consider as part of advancing this Strategy?**

Innovation and exploration needs to be supported

**Other**

**Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?**

It seems this is more an exercise in managing to continue resources that in fact we should be looking to replace.

**If you wish to, attach a document to this submission.**

**Use and release of information**

**We intend to upload submissions to our website at [www.mbie.govt.nz](http://www.mbie.govt.nz). Can we include your submission on the website?**

Yes

**Can we include your name?**

No

**Can we include your email address?**

No

**Can we include your business name or organisation?**

No

**Can we include your position title?**

No

**Can we include the group you most identify with (if submitting as an individual)?**

Yes

**Can we include the group your submission represents (if submitting on behalf of a group or organisation)?**

**If there are any other parts to your submission that you do not want public on the website please note them below:**

**OIA publishing warning**

**If there is information in your submission that you wish to remain confidential, please note them below:**
